SUMMUS

Organic Mask

An organic cotton protective sanitary 3D-type face mask

How to use

The mask does not ruin makeup, but its inner surface can get smudged if the mask is worn over foundation. Before putting on the mask make sure all skincare products applied onto the face skin are fully absorbed.

1. Check the top and the bottom of the mask, unfold the mask.
2. Pull the ear loops sideways and fix them behind your ears.
3. Adjust the position of the face mask so that it fits your face well.
